

SEALANT SELECTION GUIDE

- = highly recommended
- = recommended
- = not recommended

APS500
Advanced Polymer

ULTRA1000
Silicone

Applications

Acoustical-sound transmission reduction		
Architectural metal roofing and siding		
Asphaltic roofing	<i>can discolor</i>	
Bonding non-porous to non-porous		
Expansion joints - vertical		
Exterior		
Gutters/downspouts		
Interior		
Kitchen and bath		
Painting prep		
Siding/trim		
Structural glazing		
Traffic joints - horizontal		
Window/door insulation		

Substrates

Acrylic		
Aluminum		
Asphalt roofing	<i>can discolor</i>	
Brick		
Ceramics		
Concrete/concrete block (CMU)		
EIFS/stucco		
EPDM		
EPS and PU foam		
Fiber cement board		
Fiberglass		
FRP		
Galvanized metal		
Glass		
Kynar coated metals		
Marble		
Polycarbonate		
Polyurethane - rigid		
Recycled rubber		
Stainless steel		
Stone/granite		
TPO		
Vinyl (PVC)		
Wood
